S2.8 LIFELINE ASSISTANCE PROGRAM (Cont'd)

B. Regulations

To constitute a qualifying low-income customer eligible to receive Lifeline services, a customer must meet the requirements set forth in either paragraph 1. or 2. below:

1. A customer's household income must be at or below 135% of the Federal Poverty Guidelines for a household of that size;
 - (a) For purposes of these rules, "income" means gross income as defined under Section 61 of the Internal Revenue Code, 26 U.S.C. § 61, for all members of the household. This means all income actually received by all members of the household from whatever source derived, unless specifically excluded by the Internal Revenue Code, Part III of Title 26, 26 U.S.C. § 101, et seq.
 - (b) A "household" is any individual or group of individuals who are living together at the same address as one economic unit. A household may include related and unrelated persons. An "economic unit" consists of all adult individuals contributing to and sharing in the income and expenses of a household. An adult is any person eighteen (18) years or older. If an adult has no or minimal income, and lives with someone who provides financial support to him/her, both people shall be considered part of the same household. Children under the age of eighteen (18) living with their parents or guardians are considered to be part of the same household as their parents or guardians.
2. Lifeline Assistance is also available to all qualifying residential customers who participate in one of the following low-income assistance programs. A subscriber will also be considered to be eligible even if he does not personally participate in any of the following programs, so long as an individual who lives in his household participates in at least one of these programs:
 - a) Medicaid
 - b) Supplemental Nutrition Assistance Program (SNAP)
 - c) Supplemental Security Income (SSI)
 - d) Federal Public Housing Assistance
 - e) Veterans and Survivors Pension Benefit

S2.8 LIFELINE ASSISTANCE PROGRAM

B. Regulations (Cont'd)

3. In addition to meeting the qualifications provided in paragraph 1. or 2. of this section, in order to constitute a qualifying low-income customer, a customer must not already be receiving a Lifeline service, and there must not be anyone else in the subscriber's household subscribed to a Lifeline service.
4. Qualifying subscribers must provide the Company with acceptable documentation as proof of their eligibility to receive Lifeline service under the income-based or program-based requirements; the documentation must be securely retained by the Company. If the Company has a reasonable basis to believe that the subscriber no longer meets the qualifying criteria for Lifeline service, the Company must notify the subscriber of impending termination of the subscriber's Lifeline service in writing separate from the subscriber's monthly bill. If the subscriber fails to provide proof of eligibility within thirty (30) days following the Company's written request to the subscriber to recertify eligibility, the credit will be discontinued on the bill and the subscriber will be de-enrolled from the Lifeline program within five (5) business days after the expiration of the subscriber's time to respond to the request.
5. If the Company receives notification from the program administrator that the subscriber is receiving Lifeline service from another eligible telecommunications carrier or that more than one member of a subscriber's household is receiving Lifeline service, the subscriber will be de-enrolled from Lifeline Assistance without notice within five (5) business days following the Company's receipt of the program administrator's notification.
6. The Company will confirm a subscriber's continued eligibility to receive Lifeline service on an annual basis by requiring the subscriber to sign a certification as to his/her present qualifications for Lifeline service or through another verification process approved or required by state or federal authorities. The Company must notify the subscriber in writing separate from the subscriber's monthly bill that failure to respond to the recertification request will trigger de-enrollment. If the subscriber fails to provide proof of eligibility within sixty (60) days following the company's written request to the subscriber to recertify eligibility, the credit will be discontinued on the bill and the subscriber will be de-enrolled from the Lifeline program within five (5) business days after the expiration of the subscriber's time to respond to the recertification efforts.

S2.8 LIFELINE ASSISTANCE PROGRAM (Cont'd)

B. Regulations (Cont'd)

7. A subscriber who requests de-enrollment must be de-enrolled by the Company within two (2) business days after the request.
8. The Company will not provide Lifeline benefits to subscribers who:
 - a. have used the Lifeline benefit to enroll in a qualifying Lifeline-supported broadband Internet access service offering with another Lifeline provider within the previous twelve (12) months; or
 - b. have used the Lifeline benefit to enroll in a qualifying Lifeline-supported voice telephone service offering with another Lifeline provider within the previous sixty (60) days.
9. A subscriber may receive Lifeline benefits prior to completion of the twelve (12)-month period or the sixty (60)-month period only if:
 - a. the subscriber moves his residential address;
 - b. the subscriber's current provider ceases operations or otherwise fails to provide service;
 - c. the provider has imposed late fees for non-payment greater than or equal to the monthly end user charge for the supported service; or
 - d. the subscriber's current provider is found to be in violation of the FCC's rules during the twelve (12)-month period, and the subscriber is impacted by the violation.

If the subscriber transfers his Lifeline benefit pursuant to this paragraph, the subscriber's Lifeline benefit will apply to the newly selected service until the end of the original twelve (12)-month period, and the subscriber will not be required to recertify until the end of the original twelve (12)-month period. The subscriber's original provider must provide the subscriber's eligibility records to either the subscriber's new provider or the subscriber to comply with the twelve (12)-month service period.

10. The Company will process all applications and apply the appropriate credit on the customer's monthly bill. A secondary service charge is not applicable for existing customers who subscribe to Lifeline assistance.
11. As a participant in Lifeline Assistance, customers are eligible to receive Toll Limitation Service at no charge for any Lifeline voice telephone service that charges a fee for toll calls, either domestic or international, that is in addition to the monthly price of the customer's Lifeline service. This service will only be provided at the customer's request and is limited to plans that distinguish between local and long-distance calling.
12. Local service deposit requirements will be waived for customers who voluntarily receive Toll Limitation Service.
13. Participants in Lifeline Assistance shall not be disconnected from Local Service for non-payment of toll charges. In addition, the Company will not deny re-establishment of local service to customers who are eligible for Lifeline Assistance and have previously been disconnected for non-payment of toll charges. Lifeline Assistance will not be connected if an outstanding balance is owed by the customer for local service.
14. Partial payments that are received from Lifeline voice telephone customers will first be applied to local service charges and then to any outstanding toll charges.
15. Lifeline subscribers may apply their Lifeline discount to voice telephone service, broadband Internet access service, or a bundle of broadband Internet access service and voice telephone service; and plans that include optional calling features, such as, but not limited to, caller ID, call waiting, voicemail, and three-way calling. The Lifeline discount may also be applied to family shared data plans. The calling plan must be in the name of the eligible subscriber, and a household may receive only one Lifeline supported service. Partial payments from Lifeline subscribers purchasing bundled packages or packages containing optional calling features will first be applied to pay down the allocated price of the Lifeline supported services.
16. The PICC will not be billed to Lifeline customers who subscribe to toll blocking and do not pre-subscribe to a long-distance carrier.

S6.3 APPLICATION OF SERVICE CHARGES

A General

1. Service charges as used herein and in other sections of this price list are applicable to the ordering, connecting, moving, changing, rearranging and furnishing of telephone service and other telephone facilities and service. The charges apply as follows except as provided hereinafter in other sections of this price list.
2. Service order charges are applicable to the following services:
 - a) All classes of Basic Local Exchange Service
 - b) Private Branch Exchange Service
 - c) Directory Listings
3. Where the service desired necessitates the use of more than one item of service subject to the service charge, is the sum of the separate service charges for each item of service furnished except as hereinafter provided.
4. When service is re-established at a location which has been destroyed or made untenable by fire, wind or flood, service charges for connection, move or change do not apply when service is re-established within a reasonable time. If the subscriber desires service at a new location for a temporary period, service charges for connection will apply for the establishment of service at a temporary location but no service charge will apply when service is reestablished at the former location.
5. Service charges may be paid at the time of application of service or as otherwise provided herein.
6. Service charges apply to changing or adding custom calling features, number changes or any other miscellaneous service as specified in this price list.

S7. MISCELLANEOUS SERVICE ARRANGEMENTS

S7.1 CUSTOM CALLING SERVICES

A. General

1. The services are limited to those areas served by central offices arranged for Custom Calling Services and are subject to the availability of facilities. Custom Calling Services are only available on lines equipped for touch tone service.
2. The services are furnished only in connection with individual line service. The service is not available in connection with public or semi-public telephone service.
3. The Company will not be liable for any economic harm, personal injury, invasion of any right of privacy of any person, or any other harm, loss or injury, caused or claimed to be caused, directly or indirectly, by the Company's delivery or failure to deliver the telephone number of a calling party.

B. Definitions

1. Call Waiting - This feature signals a subscriber talking on his line that another call has been placed to his line. The subscriber may place either call on hold while talking to the other.
2. Call Forwarding - With this feature all incoming calls are forwarded to another telephone number. This arrangement may be activated by dialing a code and the telephone number of the service to which calls are to be forwarded and is deactivated by dialing another number. The Call Forwarding customer is responsible for the payment of any applicable message unit charge or direct distance dialed message toll charge for each call between his Call Forwarding telephone and the telephone to which the call is being forwarded. The charge applies to all calls that are answered at the telephone to which the calls are being forwarded, including person-to-person and collect calls even though they may not be accepted at the answering service.

S7.1 CUSTOM CALLING SERVICES (Cont'd)

B. Definitions (Cont'd)

3. Three-Way Calling - This feature enables a third party to be added to a two-way conversation without operator assistance.
4. Speed Calling - This feature permits up to eight (8) predesignated telephone numbers to be accessed by dialing a one-digit code. Up to 30 predesignated telephone numbers can be accessed by a two-digit code.
5. Do Not Disturb - This feature allows the customer, by dialing a feature code, to divert incoming calls to a special tone or optional announcement stating that the phone is in the Do Not Disturb status. The calling party may have the option of dialing (via a DTMF instrument) a personal identification number (PIN) which can override the Do Not Disturb status and allow the call to ring through. This feature is administrable by the customer and can be assigned to residential and business single-party (non-coin) lines.
6. Wake Up Service - This feature allows a customer to dial an access code, receive second dial tone, and then dial a time at which a wake up call is desired. At the entered time, a call is automatically originated to that line and, when the call is answered, a tone or optional announcement is applied to that line. The desire time must be entered in 24-hour format, e.g., 6:30 p.m. is 1830. The customer can cancel or change a wake up request once it is entered. The request must be entered daily. Wake up service can be assigned to residence and business single-party (non-coin) lines.

S7. MISCELLANEOUS SERVICE ARRANGEMENTS

S7.1 CUSTOM CALLING SERVICES (Cont'd)

B. Definitions (Cont'd)

7. Outgoing Call Screening (OCS) provides blocking of calls directed to service codes, directory assistance, seven-digit Directory Numbers, and ten-digit numbers. Calls directed to a destination on the OCS list will not be accepted. Calls directed to Basis Emergency Service (911) are not permitted to be screened. Restricted calls intercepted by the system are routed to a predetermined station, error announcement, or reorder tone for disposal or call treatment, depending on Operating Company's preference.

The specific number or digit sequences for OCS are selected by the customer and programmed by the Telephone Company. The use of OCS requires no action on the part of the customer. OCS is a service which enables customers to restrict certain types of outgoing calls from being placed over their exchange lines/ trunks. This capability is provided only by means of recorded announcement restriction.

OCS is furnished only from central offices equipped to provide this service and where facilities permit. Subscribing to OCS does not relieve customers of responsibility for calls charged to their numbers.

The Company shall not be liable to any person for damages of any nature or kind arising out of, or resulting from, or in connection with the provision of this service, including without limitation, the inability of station users to access the operator for any purpose, or any other restricted codes for the options listed.

Customers requesting OCS may have the choice of selecting any one or a combination of the following digit sequences for screening:

N11	Service Codes, excluding 911
N11	Directory Assistance
NXX-XXXX	Directory Number
NPA-NXX-XXX	Area Code plus Directory Number

Where N=digits 2 through 9

X= digits 0 through 9

S7.2 TOLL RESTRICTION SERVICE

A General

1. Code Restriction and Diversion (“CRD”) feature allows call completion to customer selected codes after dialing the toll access codes. Calls to Basis Emergency Service (911) are not permitted to be blocked. The types of termination treatments to which restricted calls can be diverted are expanded to include reorder tone, announcement, reverse battery, or an intercept directory number depending on Company's preference.
2. The specific numbers or digit sequences for CRD are selected by the customer and programmed by the Company. The use of CRD requires no action on the part of the customer.
3. Code Restriction and Diversion is a service which enables customers to restrict certain types of toll calls from being placed over their exchange lines/trunks. It is offered with options containing various sets of codes to be restricted, and is available to basic exchange customers with Individual Line Residence or Business Service or PBX Trunks.
4. Code Restriction and Diversion is furnished only from central offices equipped to provide this service and where facilities permit.
5. Subscribing to CRD does not relieve customers of responsibility for calls charged to their numbers.
6. The Company shall not be liable to any person for damages of any nature or kind arising out of, or resulting from, or in connection with the provision of this service, including without limitation, the inability of station users to access the operator for any purpose, or any other restricted codes for the options listed.

S7.3 DIRECT CONNECT

A General

1. Direct Connect allows the Operating Company to program a 7- or 10-digit number to which the line is to route upon off-hook. The ability is provided to allow for a timed interval of dial tone prior to the off-hook routing. This allows the customer to dial a call if desired. This feature can be assigned to residence and business single-line party (non-coin) lines not subscribing to Call Forwarding feature.

S7.4 VOICE/DATA PROTECTION

A General

Voice/Data Protection ("VDP") allows the user, by dialing a feature code, to restrict any intrusion on the line during the call in progress. The main purpose of this feature is to prevent data transmission errors caused by interruption tones such as call waiting, operator verification, etc. A customer with VDP service can activate this feature by dialing the VDP access code. Once VDP has been activated, it will remain activated throughout all subsequent calls unless the customer deactivates it. This feature can be assigned to residential and business single-party (non-coin) lines not subscribing to Do Not Disturb or Call Forwarding.

S7.5 SIRA SERVICE

A. General

1. Subscriber Identified Ringing Assignment (“SIRA”) allows two or three telephone directory numbers to be assigned to a single line along with distinctive ringing patterns associated with the specific directory dialed to reach the line. If a customer also has Call Waiting (CW), a unique CW tone corresponding to the ringing pattern may also be provided. These distinctive ringing and call waiting patterns allow customers to determine for whom an incoming call is intended. If call forwarding is also assigned to a SIRA line, it can operate in one of two ways:
 - a. Calls directed to all telephone numbers are forwarded when call forwarding is activated, or
 - b. Only calls directed to the primary number are forwarded when call forwarding is activated.
2. SIRA may be offered to all single-party residential and business customer.
3. SIRA may not be assigned to Business Group Lines (Centrex and Multiline Variety Package), Multiline Hunt Groups, Coin Lines, PBX Lines, Multi-party Lines, Paging, Mobile Service, Foreign Exchange Service, or with access lines terminating in customer premises switching or key equipment. SIRA service may not be compatible with all types of customer provided telephone equipment.
4. SIRA service is provided subject to the availability of facilities. Additionally, SIRA service may not be available in all central offices.
5. SIRA service customers will be entitled to one listing with each SIRA service number.
6. All telephone numbers associated with a line equipped with SIRA service must originate from the same central office switching machine.
7. SIRA service is offered in the following format: SIRA I consists of one additional telephone number associated with a single line; SIRA II consists of two additional telephone numbers associated with a single line.
8. When a customer establishes SIRA service, the appropriate service charges will apply.

S7.7 CALL TRANSFER

A. General

1. Call Transfer enables a customer to receive or originate calls on their number and transfer that call to a second number. This is done by a switch-hook of the receiver button and dialing the third party's number. The subscriber hangs up the phone leaving the two parties connected. Call Transfer can only be used in connection with individual line service and both lines must be served out of the same central office. The customer must also have the 3-way calling feature on his phone.

S7.8 AUTOMATIC CALLBACK

A. General

1. Automatic Callback allows the customer, using an activation code, to recall the directory number (DN) of the last outgoing call from his telephone. The call to that DN will be set up whether or not the called party answered the original call. Therefore, without having to redial the DN, the customer can use an activation code either to contact a party he has been unable to reach or continue an interrupted discussion. If the called line is busy, processing of the call will be delayed until both the called and calling parties are idle.

S7.9 AUTOMATIC RECALL

A. General

1. Automatic Recall allows a customer to dial an activation code to place a call to the last party who called or attempted to call him/her. With the use of an Expanded Announcement System, the customer is able to hear the directory number voiced back, unless it is marked as private, allowing the customer to determine if he/she wants to return that call. If the called line is not busy, the call is placed. If the called line is busy, the customer hangs up and a queuing process begins. For the next thirty (30) minutes both the calling and called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the call is ready to be placed. When the customer picks up the telephone the call will automatically be placed. Automatic Recall is not available on operator handled calls.

S7.10 CALLING NUMBER DELIVERY

A. General

1. Calling Number Delivery (also known as Caller ID) permits the customer to receive the calling telephone number for calls placed to that customer, if the call is not placed from outside of the Call ID area, through an operator or via a telephone credit card, and providing the calling party has not activated the per call restrict options.

Before placing an outgoing local telephone call, customers with per call restrict may designate their number as private and prevent the delivery of their telephone number to the called party through the Call ID feature for that call by dialing the Call ID restrict activation code.

Any customer subscribing to Calling Number Delivery will be responsible for providing a display device designed for use with Calling Number Delivery. The Company will not be responsible for obtaining, maintaining or repairing any such device. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the Calling Number Delivery feature.

S7.13 CALLER ID NUMBER AND NAME DELIVERY

A. General

1. This feature enables the customer to view on a display unit the calling party Directory Name and Directory Number (DN) on incoming calls
2. When activated on a customer's line, the calling party Directory Name and Directory Number on incoming calls will be displayed on the called number display unit during the first long silent interval of the ringing cycle. The date and time of the call is also transmitted to the Caller ID customer.
3. Any customer subscribing to Caller ID Number and Name Delivery will be responsible for the provision of a display device which will be located on the customer's premises. The Company will not be responsible for obtaining, maintaining or repairing any such device. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the Caller ID Number and Name Delivery feature.
4. If the incoming call is from a caller who subscribes to SIRA service the name and number transmitted will always be the main directory listing information rather than the SIRA service listed name and number.
5. If the incoming call originates from a multi-line hunt group, the name and number transmitted will always be the main listed directory name and number of the hunt group, unless, facilities permitting, the lines are Telephone Number (TN) identified within the group.

S7.19 DIRECT INWARD DIALING (DID) SERVICE

A. General

DID service permits calls incoming to a PBX or other CPE from the network to reach a specific station:1 line number without the assistance of an attendant. DID service is provided subject to the availability of facilities and may be furnished from the central office which regularly serves the area in which the customer is located or from a foreign central office equipped to provide DID service subject to the appropriate intra/interacting rates. Rates are in addition to the rates shown elsewhere in this price list and the Company Tariff for the services and equipment with which this offering is associated.

The service includes central office switching equipment necessary for indialing from the network directly to station lines associated with customer premises switching equipment. The service must be provided on all trunks in a group arranged for inward service. Each trunk group shall be considered a separate service. Grouping service will not be provided between separate trunk groups.

Facilities and operational characteristics of interface signals between the Company provided connecting arrangements and the customer provided switching equipment must conform to the rules and regulations the Company considers necessary to maintain proper standards of service.

One primary directory listing will be furnished without charge for each separate trunk group. The customer shall be responsible for providing interception of calls to vacant and non-working assigned DID numbers by means of an attendant intercept or recorded announcement service.

S7.20 CALL WAITING DISPLAY

A. General

1. Call Waiting Display allows the subscriber to view the name and directory number of a call in the call waiting mode. S10. INTRALATA PRIVATE LINE SERVICE

S10.1 UNDERTAKING OF THE COMPANY

A. Provision of Facilities

The Company undertakes to maintain and repair the facilities which it furnishes. The Customer or authorized user may not rearrange, disconnect, remove or attempt to repair any equipment installed by the Company except upon the written consent of the Company.

B. Work Performed Outside Regular Working Hours

The rates and charges specified in this price list contemplate that work will be performed during regular working hours and that work once begun will not be interrupted by the customer. If, at the request of the customer, work is performed outside of regular working hours, either to meet his convenience or because the time allowed is insufficient to permit completion during regular hours or if the customer interrupts work which has begun, the customer may be required to pay any additional costs incurred.

C. Scope

1. IntraLATA Private Line Service is the furnishing of the Company facilities for communication between specified locations 24 hours daily seven days per week. Facilities may be those of the company only or those of the Company and connecting companies.
2. The Company does not undertake to transmit messages.
3. IntraLATA Private Line Services not specified in this price list will be provided on an Individual Case Basis (ICB).
4. IntraLATA Private Line Service is available to end user customers only. BellSouth, IXC's, competitive local exchange carriers and other carriers must order under the Company's Special Access Tariff.
5. Provisions of Private Line Services referenced in this Section are subject to availability of Company facilities, equipment, and technical capabilities, and, as applicable any limitations and operating characteristics of equipment and technical capabilities.
6. This section is subject to the terms and conditions of the September 12, 2002 Order of the Alabama Public Service Commission in Docket 28642 and any subsequent directives issued thereunder.

D. Liability

1. The liability of the Company for damages arising out of mistakes, omissions, interruptions, preemptions, delays or errors or defects in transmissions occurring in the course of furnishing service and not caused by the negligence of the customers, or the Company in failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision shall in no event exceed an amount equivalent to the proportionate charge to the customer or the period of service during which such mistake, omission, interruption, preemption, delay, or error or defects in transmission occurs.

S10.1 UNDERTAKING OF THE COMPANY

D. Liability (Continued)

2. The Company shall be indemnified and saved harmless by the customer against:
 - a. Claims for libel, slander and infringement of copyright arising from the material transmitted over the facilities;
 - b. Claims for infringement of patents arising from, combining with, or using in connection with, facilities furnished by the Company, apparatus and systems of the customer; and
 - c. All other claims arising out of any act or omission of the customer in connection with the facilities provided by the Company.
3. The Company is not liable for any act or omission of the other company or companies furnishing a portion of the service.
4. The Company does not guarantee or make any warranty with respect to equipment provided for use in an explosive atmosphere. The customer indemnifies and holds the Company harmless from any and all loss, claims, demands, suits, or other action, or any liability whatsoever, where suffered, made, instituted or asserted by the customer or by any other party or person, or any personal injury to or death of any person or persons, and for any loss, damage or destruction of any property, whether owned by the customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location, or use of said equipment so provided.
5. The Company may require each customer to sign an agreement for the furnishing of such equipment as a condition precedent to the furnishing of such equipment.
6. The company is not liable for any defacement of or damage to the premises of a customer resulting from the furnishing of channel facilities or the attachment of the instruments, apparatus and associated wiring furnished by the Company on such premises or by the installation or removal thereof, when such defacement or damage is not the result of negligence of the agents or employees of the Company.
7. The Company shall be under no liability for the quality or defects in voice recordings where Company combined transmitting and recording equipment is utilized in making such recordings.

D Liability (Cont'd)

8. Unauthorized Computer Intrusion

The Company's liability, if any, for its willful misconduct is not limited by this section of the price list. With respect to any other claim or suit by a subscriber, common carrier, reseller, or any other party for damages caused by, or associated with, any unauthorized computer intrusion, including but not limited to the input of damaging information such as a virus, time bomb, any unauthorized access, interference, alteration, destruction, theft of, or tampering with, a Company computer, switch, data, database, software, information, network or other similar system, the Company's liability, if any, should not exceed an amount equal to the proportionate charge by the Company for the service for the period during which the service provided by the Company was affected or so utilized.

9. Transmission of Data

The Company shall not be held liable for any damage, harm or loss of data caused by the subscriber using the Company's voice-grade telephone access lines and/or facilities for the transmission of data. The Company's liability shall be limited to errors or damages to the transmission of voice messages over these facilities, and the liability shall be limited to an amount equal to the proportionate amount of the Company's billing for the period of service during which the errors or damages occur.

10. Errors or Damages Caused by System Date Limitations

The Company's liability for errors or damage resulting from the inability of the Company's systems to process dates, such as the Year 2000, shall be limited to the amount equal to the proportionate amount of the Company's billing for the period of service during which the errors or damages occur.

11. Unauthorized Devices

The Company shall not be held liable or responsible for any damage or harm that may occur as the result of unauthorized devices or the failure of the Company to detect unauthorized devices on the subscriber's line.

E. Provision of Facilities

The Company or the Company and other carriers will provide all facilities necessary for private line service to the demarcation point at a customer premises, except that, the customer or authorized user may provide his own terminal equipment or communications systems for use with such service as specified in 1 through 3. following or as otherwise specified hereinafter.

1. Where the customer or authorized user provides his own communications system, or terminal equipment the customer or user shall provide all station apparatus and associated channels which are apart of the system and which are located on the same customer' s premises as the system.
2. When a private line is used for data transmission which requires terminal equipment (data sets), such data sets may be provided by the customer or authorized user except that the Company shall furnish all data sets located in the Company's central offices. Where the customer or authorized user elects to provide his own data set(s) on a given private line, it shall be the responsibility of the customer or authorized user to ensure the continuing compatibility of such data set(s) with the facilities furnished by the Company.
3. When a private line is used for transmission purposes other than voice, it is contemplated that the customer or authorized user will provide the station equipment for such other purposes.

S10.2 DS1 SERVICE

A. General

1. DS1 service is furnished for Private Line IntraLATA communications by the Company.
2. DS1 service is a service for the transmission of digital signals only and using only digital transmission facilities.
3. DS1 service provides for the simultaneous two-way transmission of isochronous digital signals at DS1 speeds of 1.544 Mbps where facilities are available.
4. To insure satisfactory operation, the terminal equipment provided by the customer shall be compatible with the DS1/1.544 Mbps channel facility provided by the Company.
5. Unless specified following, the regulations for DS1 service specified herein apply in addition to the regulations set forth in the General Rules and Regulations
6. The rates specified for DS1 service following contemplate the provision of a digital quality facility over existing interoffice carrier equipment and/or exchange cable facilities compatible with this service. If such equipment, new facilities or changes to existing facilities are required for the provision of this service, a special construction charge based on the cost incurred to make the changes will apply in addition to the rates for DS1 service.

S10.2 DS1 SERVICE (Cont'd)

B. Description of Service

1. DS1 service is furnished for the simultaneous two-way transmission of serial, Bipolar Return-to-Zero, isochronous digital signals, except where intentional bipolar violations are introduced by Bipolar with 8 Zero Substitution (B8ZS) format, at a speed of DS1/1.544 Mbps between two-points located within a LATA.
2. DS1 service is available on a month-to-month basis or under variable rates based on lengths of 12 months, 24 months, or 36 months, under conditions specified in this price list.
3. The Company does not represent its DS1 service as adapted for such connections, and shall not be responsible for the through transmission of signals or the quality of such transmission on such connections.
4. A Channel Service Unit (CSU) or appropriate Termination Equipment (TE) provided by the customer is required at a customer's or authorized user's premises to perform such functions as proper termination of service, amplification, signal shaping, and remote loop-back.
5. The design, maintenance, and operation of DS1 service contemplates communications originating and terminating as (1) a customer premises to customer premises channel via the Company's Serving Wire Center (SWC) and/or through remote SWC's; (2) a customer premises to the Serving Wire Center - and/or to remote SWC's - partial channel (link); or (3) a Central Office to Central Office (interoffice) partial channel (link); or (4) between SWC's of this Company and a central office of a connecting company within the LATA.

C. Definitions

Channel Service Unit - The term "Channel Service Unit" (CSU) denotes equipment provided by the Customer to terminate a digital facility on the customer's or user's premises.

Channelization - is an optional channel service package to activate voice and data facilities.

Digital Local Channel - The term "Digital Local Channel" denotes a path for DS1 service furnished from the demarcation point on the customer's premises to their Serving Wire Center ("SWC").

DS1 - This denotes a channel service expressed in its digitally encoded data bit rate in accordance with the North American hierarchy of digital signal levels. It has a 1.544 Mbps transmission data rate, and provides for the two-way simultaneous transmission of isochronous timed, Bipolar Return-to-Zero (BRTZ) bit stream format, except where intentional bipolar violations are introduced by Bipolar with 8 Zero Substitution (B8ZS) format. Unframed signal formats are not permitted or compatible with Company equipment.

C. Definitions (Cont'd)

Interoffice Channel - The term "Interoffice Channel" denotes a path (or paths) for digital transmission between Company SWC within the LATA, or between Company SWCs and other ILEC serving wire centers within the LATA. An interoffice channel may be furnished in such a manner as the Company may elect.

Superframe Format ("SF")-Provision of DSI without Clear Channel Capability

Extended Superframe Format ("EFT") - Provision of DSI with Clear Channel Capability.

D. Application of Rates

1. Digital Local Channels furnished between a Serving Wire Center and the customer's premises will be charged at rates set forth for Digital Local Channels under Rates and Charges.
2. Interoffice Channels furnished between Central Offices will be charged at rates based on airline distance between the Central Offices.
3. DS1 service is available on a month-to-month basis or under variable rate periods with rates based on lengths of 12 months, 24 months, or 36 months.
4. A Termination Liability Charge is applicable at the date of termination. The applicable charge is dependent on the contract period subscribed to and will be equal to the number of months remaining in the contract times the monthly rate provided under the contract.

E. Responsibility of the Company

1. The responsibility of the Company shall be limited to the furnishings and maintenance of DS1 service to that point on the customer's premises where provision is made for the connection of customer-provided equipment. If the customer requires a different location in the same building, it can be provided under the Premises Network Wiring Charge found in this price list.
2. The Company shall not be responsible for installation, operation, or maintenance of any terminal equipment or communications systems provided by a customer. DS1 service is not represented as adapted for the use of such equipment or system. Where such equipment or system is connected to Company facilities the responsibility of the Company shall be limited to the furnishing of facilities suitable for DS1 service and to the maintenance and operation in a manner proper for such digital service. The company shall not be liable for:
 - the through transmission of signals generated by such equipment or system, or for the quality of, or defects in, such transmission or
 - the reception of signals by such equipment or systems, or
 - the damage to terminal equipment or communications systems provided by a customer or authorized user due to testing.
3. The Company shall not be responsible to the customer if changes in any of the facilities, operations, or procedures of the Company utilized in the provision of DS1 service render any facilities or equipment provided by a customer obsolete, or require modification or alteration of such equipment or system or otherwise affects its use or performance.
4. The Company undertakes to maintain and repair the facilities which it furnishes. The customer may not rearrange, disconnect, remove, or attempt to repair any equipment installed by the Company without prior written consent of the Company.

F. Responsibility of the Customer

1. The customer is responsible for installing and testing his premises equipment or facilities to insure that when they are connected with DS1 service such equipment or facilities are operating properly.
2. The operating characteristics of the customer's premises equipment or facilities shall be such as not to interfere with any of the services offered by the Company. Such use is subject to the further provisions that the equipment provided by a customer does not: endanger the safety of Company employees or the public; damage, require change in or alteration of the equipment or other facilities of the company; interfere with the proper functioning of such equipment or facilities; impair the operation of the Company's facilities or otherwise injure the public in its use of the Company's services. Upon notice from the Company that the equipment provided by a customer is causing or is likely to cause such hazard or interference the customer shall take such steps as shall be necessary to remove or prevent such hazard or interference.
3. The customer's responsibility shall include cooperative testing with the Company as may be necessary. Where regeneration and/or equalization adjustments or changes may be required to compensate for rearrangements and/or changes in outside plant facilities, the customer will be responsible for all expenses incurred in changes to his premise's equipment.
4. The customer shall be responsible for payment of a Trouble Determination Charge as set forth in this price list for visits by the Company to the premises of the customer where the service difficulty or trouble report results from the use of equipment or facilities provided by the customer.

S10.3 DIGITAL DATA SERVICES

A. General

Digital Data Services are transmission services designed to transmit data in digital form end to end over Digital facilities.

B. Description of Services

Digital Data Services are capable of the simultaneous two-way transmission of digital signals at synchronous speeds of 2.4, 4.8, 9.6, 19.2, 56 or 64 Kbps between points within a LATA.

C. Definitions

Digital Local Channel - denotes a path for services furnished from the serving wire center to the demarcation point on the customer's premises.

Digital Interoffice Channel - denotes a path for services between the serving wire center and its primary node central office, or between node central offices, within a LATA. An interoffice channel may be furnished in such a manner as the Company may elect.

Multipoint Service - denotes a service which provides communications capability between more than 2 private line locations by means of bridging or hubbing arrangement.

Secondary Channel Capability - denotes the offering of a companion digital transmission capability over the same physical facility as the primary channel at a lower bit rate. Terminal equipment required to support secondary channel capability must be provided by the customer.

D. Rates and Charges

1. Digital Local Channel is furnished between a Serving Wire Center and the customer's premises. The Digital Local Channel Charges apply per local Channel and include a Channel Termination at the Company's Central Office.

S10.4 VOICE GRADE SERVICE

A. General

1. Voice Grade Service provides for voice and/or data communications on a two-point or multipoint basis for service 7 days per week, 24 hours per day, for a minimum period of one month.
2. Channel Services provided under the provisions of this price list are offered for IntraLATA Services only. Voice Grade Services consist of Local Channels, Interoffice Channels, and Optional Features and Functions.

B. Rate Categories

Following are the basic rate categories which apply to Voice Grade service.

1. Local Channels

A local Channel provides for a communications path between the demarcation point at a customer premises and the serving wire center of that premises. One local channel charge applies per channel termination.

2. Interoffice Channels

This rate category provides for the transmission facilities between serving wire centers associated with two customer premises, between serving wire centers associated with a customer premises and a Company hub, or between two Company hubs.

Interoffice mileage is portrayed as a flat rate and a rate per mile. For method of determining airline mileage, see the NECA Tariff.

3. Optional Features and Functions

This rate category provides for features and functions which may be added to a service and to improve its quality or utility to meet specific communications requirements. These are not necessarily identifiable with specific equipment, but rather represent the end result in terms of the performance characteristics which may be obtained. This category includes a. and b. following.

a. Hub Functions

A hub is a Company designated wire center where bridging or multiplexing functions are performed i.e., connecting three or more customer premises in a multipoint arrangements or channelizing analog or digital services requiring a lower capacity or bandwidth.

- b. Provides for such things as signaling, conditioning, transfer arrangements, protection switching, etc.

- a. Two-Point Service

A two-point service connects two customer premises either directly through a serving wire center(s) or through a Company hub where additional functions are performed.

- b. Multipoint Service

- (1) Multipoint service connects three or more customer premises through a Company hub.
 - (2) There is no limitation on the number of mid-links available with multipoint service. However, when more than three mid-links are provided in tandem, the quality of the service may be degraded. A mid-link is a channel between hubs (i.e., bridging locations).
 - (3) Voice Grade Multipoint Channel services for data use have a limit of six two-wire facility type local channels or 20 four-wire facility type local channels when used with customer-provided station equipment.
 - (4) Only certain types of service are available for multipoint applications.

D. Special Routing of IntraLATA Voice Grade Service

1. The Voice Grade services furnished in this price list are provided over such routes as the Company may elect.
2. Special routing is involved where, in order to comply with requirements specified by the customer, the Company furnishes the private line service in a manner which includes one or both of the following conditions:
 - a. Where two or more private lines must be furnished over different physical routes.
 - b. Where a private line must be furnished on a route which avoids specified geographical locations.
3. When special routing of services is furnished a customer, the rates will be determined on an individual case basis.

- b. Four-Wire - A Four Wire interface with four-wire facilities engineered for a 1004 Hz net loss of 16dB. Generally used in the provision of analog data services. Multipoint service may be provided.

4. Telemetry/ Alarm Bridging Service

a. Regulations

- (1) This price list section contains the regulations applicable for Telemetry/Alarm Bridging Service.
- (2) Except as otherwise specified following, the regulations contained herein are in addition to the regulations found in other sections of this price list.
- (3) Telemetry/Alarm Bridging Service requires the use of equipment as specified following and voice grade local channels.
- (4) Terminal equipment provided by the customer to use with this service must meet specifications for such customer-provided equipment found in other sections of this price list.
- (5) No more than 128 remote stations may be connected to a master station over an individual Split Band Active Bridge.
- (6) In Split Band Active Bridging arrangements, secondary bridges must be directly connected to the primary bridge via mid-link channels. Secondary bridges cannot be connected through other secondary bridges to allow additional layers of tandeming.

4. Telemetry/Alarm Bridging Service (Cont'd)

a. Regulations (Continued)

- (7) Secondary bridges, utilized in Split Band, Active Bridging arrangements, reduce the two-wire remote station capacity of the primary bridge. The initial secondary bridge reduces the primary bridge capacity by twelve two-wire remote station connections. Each subsequent secondary bridge reduces the primary bridge capacity by four additional two-wire remote station connections. At the customer's option external bridging may be provided for connecting secondary bridges at the rate applicable following without reducing the two-wire capacity of the primary bridge.
- (8) Standard multipoint bridging charges as provided in other sections of this price list are not applicable to this service except as provided in g. preceding.
- (9) Access over remote station channels is provided through a local channel and through the appropriate channel connection as contained following. Interconnection of remote stations located outside the serving wire center where the bridge to which they are to be connected is located will require interoffice channels at charges contained in this price list or the Company's tariff.
- (10) Access over each four-wire mid-link channel for Split Band Active Bridging is through voice grade interoffice channels at charges contained in this price list or the Company's tariff. Additionally, mid-link channel connections are required as described following.

b. Service Description

- (1) Telemetry/Alarm Bridging Service is a must station, voice frequency, private line service designed to provide connections between a master station and a number of remote stations simultaneously. Direct transmission between remote stations is not intended. This service is intended for application in multipoint, voice frequency, data or tone signaling arrangements with transmission at rates up to 400 baud.

Two-way (polling) communication between the master station and each remote station is intended.

F. Rate Regulations

1. Types of rates and charges.

The two types of rates and charges are monthly rates and nonrecurring charges and are described as follows:

a. Monthly Rates

Monthly rates are recurring charges that apply each month or fraction thereof that a service is provided. For billing purposes, each month is considered to have 30 days.

b. Nonrecurring Charges

Nonrecurring Charges are one-time charges that apply for a specified work activity. The three types of nonrecurring charges that apply are installation of service, installation of features and functions and service arrangements.

(1) Installation of Service

Nonrecurring charges apply for each service terminated at the customer's premises. For the installation of local channels when more than one of the same type of service, between the same locations, for the same customer is ordered and installed at the same time, one at each location is billed at the First Service Installed rate and the others are billed at the Additional Service Installed rate.

The nonrecurring charges for the Installation of Services are set forth following as Nonrecurring Charges for the Local Channel and Interoffice Channel rate elements.

b. Nonrecurring Charges (Cont'd)

- (2) Nonrecurring charges apply for the installation of features and functions available with the various services. For some features and functions there is a lower charge if installed coincident with the service and a higher charge if installed subsequent to the service.

c. Service Rearrangements

- (1) Service rearrangements are changes to existing (installed) services which do not reinstall either a change in the minimum period requirements or a change in the physical location of the point of termination at a customer premises. Changes which result in the establishment of new minimum period of obligations are treated as disconnects and starts. Changes in the physical location of the point of reanimation are treated as moves and are described and set forth in this price list.

The charge to the customer for the service rearrangement is dependent on whether the change is administrative only in nature or involves actual physical change to the service.

Administrative changes will be made without charge(s) to the customer. Such change require the continued provision and billing of the Private Line Service to the same entity (i.e., customer remains responsible for all outstanding indebtedness for the service). Administrative changes are as follows:

- Change of customer name (i.e., the customer of record does not change but rather the customer of record changes name),
- Change of customer or customer's premises address when the change of address is not a result of a physical relocation of equipment.
- Change in billing data (name address or contact name or telephone number.)

c. Service Rearrangements (Cont'd)

(2) All other service rearrangements will be charged for as follows:

- If the change involves the addition of other customer designated premises to an existing multipoint service, the nonrecurring charge for the local channel rate element will apply. The charges will apply only for the location(s) that is being added.
- If the change involves the addition of an optional feature or function which has a separate nonrecurring charge, that nonrecurring charge will apply.
- If the change involves changing the type of signaling on a voice grade service the subsequent, nonrecurring charge will apply for the new type signaling. The charge will apply per service termination affected.
- for all other changes, including a change of the customer of record involving no physical changes to the service provided or the addition of optional features without separate nonrecurring charges, a charge equal to a local channel rate element nonrecurring charge will apply. Only one such charge will apply per service, per change.

(3) Moves

(a) A move involves a change in the physical location of one of the following:

(i) The point of interface at the customer premises.

(ii) The customer's premises.

(b) The charges for the move are dependent on whether the move is to a new location within the same building or to a different building.

(i) Moves Within the Same Building

When the move is to a new location within the same building, the charge for the move will be an amount equal to one-half the nonrecurring (i.e., installation) charge for the affected service termination at the customer's premises. There will be no change in the minimum period requirements. If a move is made at the same time a service rearrangement is made, the total charge will never exceed a full nonrecurring charge for the basic service.

(ii) Move to a Different Building

Moves to a different building will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply. New minimum period requirements will be established at the new location. The customer will also remain responsible for satisfying all outstanding minimum period charges for the discontinued service.

S11.1 GENERAL

- A. Foreign Exchange Service is furnished subject to the same restrictions as to the use of the service by others than the subscriber and his representatives, as apply in connection with other classes of the local exchange service.
- B. Subscribers to interexchange FX service contract for service with the Company owning the local exchange and normally do not contract with the other Company or companies involved, however, the Company owning the local exchange is responsible to its subscriber only for its own facilities and service.
- C. A subscriber of FX service will be required to also take regular exchange service from the local exchange. In no event shall the FX service be allowed to be connected to, or otherwise be made available for, the local exchange switchboard service.
- D. Foreign Exchange Service is offered as local exchange service and the use of this service for originating toll service is not contemplated, therefore if any subscriber is found to be using the foreign exchange telephone for toll the subscriber and the foreign exchange business office will be notified that the practice must be discontinued or the foreign exchange service may be terminated ten (10) days after the date of such notice.

S11.2 DEFINITIONS

- A. Foreign Exchange (or FX) Service is exchange (local) service furnished to a subscriber from an exchange other than the one from which he would normally be served. Such service is not in accord with the general plan of furnishing telephone service and such service is furnished only under special conditions, where warranted by the circumstances, including availability of facilities involved.
- B. The exchange in whose service area the customer is located and which furnishes the telephone or PBX termination for foreign exchange service and which bills and collects for such service is called the Local Exchange.
- C. The exchange which provided the central office facilities and thereby furnished the foreign exchange service is called the Serving Exchange.
- D. Where Foreign Exchange Service is provided between exchanges or exchange areas of the Company, it is called Intra-Company FX Service. Where such service is furnished between an exchange of the Company and that of another Company, it is called Inter-Company FX Service.

S11.3 RATES AND CHARGES

- A. The monthly rate for Foreign Exchange Service is the monthly rate for individual access line, station, or PBS trunk, applicable in the serving exchange plus the regular authorized monthly charges for any exchange service facilities, except stations and PBX trunks (but including any applicable mileage charge), used in furnishing the service by the local exchange, plus;
1. Mileage charges, route measurement, of Company owned circuit used in connecting the local exchange central office with the serving exchange central office, plus;
 2. Any additional charges made by another telephone company or companies in furnishing the circuit.
 3. The charge set out in (1) above is predicated on the Company having available facilities. If it is necessary for this Company to construct new facilities or to rent space on foreign poles to carry FX circuits, there will be an additional charge to be negotiated based on the cost of such facilities.
- B. Installation and service connection charges for furnishing Foreign Exchange Service shall be the authorized charges for individual line main station, or PBX trunk applicable in the serving exchange, plus the regularly authorized installation charges for any exchange service facilities, except stations used in furnishing the service by the local exchange.

S11.4 APPLICATIONS, BILLING AND COLLECTING PROCEDURE

- A. Interexchange FX Service will be furnished under the terms and conditions of the Foreign Exchange Service Agreement executed between this Company and the Company involved. This agreement contemplates that:
1. When a party located in this Company's exchange service area, desires this class of service, he shall apply for same to this Company, which will obtain from the Company furnishing the serving exchange service its charges and conditions for providing its parts of the applicants requested service, and on submission to applicant, and his acceptance by executed contract of the overall charges including those of this Company both for installation and monthly flat rate cost and conditions of service. This applicant becomes a FX subscriber of this Company which will perform all billing to and collecting from said subscriber for the entire service rendered.
 2. When a party located in another Company's exchange service area desires FX Service to an exchange belonging to this Company, his application should be made to the other Company which should handle all necessary arrangements for service on an establishment of same, do all subscriber billing and collecting. This Company has no responsibility to the subscriber with respect to such matters.

S13. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S13.1 GENERAL REGULATIONS

A. General

This section addresses the responsibilities and liabilities of the customer and company where customer provided terminal equipment and communications systems provided terminal equipment and communications systems interconnect with the regulated services of the Company. Customer provided refers to any equipment purchased by the customer or leased by the customer from the deregulated operations of the Company or from any other provider of such equipment.

B. Responsibility of the Customer

Customer-provided communications equipment may be used with the facilities furnished by the Company for telecommunications services as provided in this price list. In all such cases the customer-provided communications equipment will be constructed, maintained and operated as to work satisfactorily with the facilities of the Company.

The customer indemnifies and saves the Company harmless against claims for infringement of patents arising from combining such equipment or systems with, or using it in connection with, facilities of the Company; and against all other claims arising out of any act or omission of the customer in connection with facilities provided by the Company.

C. Responsibility of the Company

The Company shall not be responsible for the installation, operation or maintenance of any customer-provided terminal equipment or communications systems. Telecommunications or private line service is not represented as adapted to the use of customer-provided equipment or systems and where such are connected to the Company facilities the responsibility of the Company shall be limited to the furnishing of facilities suitable for telecommunications service and to the maintenance and operation of such faculties in a manner proper for such telecommunications service. Subject to this responsibility, the Company shall not be responsible for the customer-provided equipment or systems or for the quality of, or defects in, such transmission, or (2) the reception of signals by customer-provided equipment or systems, or address signaling where such signaling its performed by customer-provided signaling equipment. The Company will not be responsible for any loss or damage, not for any impairment or failure of the service, arising from or in connection with the use of facilities of customers and not caused solely by the negligence of the Company.
